

Portable Anti-Explosion Refrigerant Recovery Unit

Function: recovery & recharge refrigerants

Features:

- I. Can recovery and recharge R290, R600a, R32etc
- II. Anti-explosion design. Can recover vapor, liquid refrigerants
- III. Large fan and high-efficiency condenser design, recovery speed is very rapid
- IV. Multi-valve design, can self-purge residual refrigerant in system, no worry for cross contamination
- V. High pressure protection and current protection function
- VI. Pull-rod design, convenient for carry out
- VII. Can continuously work for 24 hours

Parameters:

Compressor	Refrigerants	Vapor Recovery Rate	Liquid Recovery Rate	Power
1/2HP	R290,R600a, R32	≤19.5kg/h	≤100kg/h	220V/50HZ 110V/60HZ

Dimension: 48cm(L)×22cm(W)×37cm(H)
